

Nova Correção: Ao adicionar os telefone de emergência e o número do suporte pela plataforma Beta, já vai aparecer no aplicativo dos usuários.

Ao adicionar os telefone de emergência e o número do suporte pela plataforma Beta, já vai aparecer no aplicativo dos usuários.

The image shows a configuration interface for a platform. On the left is a sidebar with icons for menu, play, book, list, speech bubble, user, bell, location pin, car, camera, and settings. The main area is titled 'Plataforma de rastreamento IoT e gestão financeira'. It contains several input fields for links: 'Descrição do servidor', 'Link do AppleStore', 'Link GooglePlay', 'Termos Link', 'Privacidade Link', and 'Manual App link'. Below these are two fields: 'Telefone de Emergência' (Emergency Phone) and 'WhatsApp Suporte' (WhatsApp Support), both highlighted with a red rectangle. To the right of these is a 'Site' field. At the bottom of this section is a 'Salvar' (Save) button. To the right of the main form is a 'Horário de atendimento' (Service Hours) section with dropdowns for 'Segunda a Sexta de:' (Monday to Friday from), 'Sábado das:' (Saturday from), and 'às:' (at), with another 'Salvar' button below.

Revision #2
